

Shopping Cart

In the Shopping Cart all items to be ordered will be gathered. Through the cart the check out for the items to order will be initiated.

アイテム: 2 Shopping Cart and Checkout

Check out process starts from the **Cart Summary**, prior to that all data may be checked and changes can be updated if necessary.

Cart Summary

The screenshot shows the 'endorsia' shopping cart interface. At the top, there are navigation links for Home, Go To, Profile, and Sign Out. Below that, there are search and quantity fields. The main header area displays 'Welcome, Thomas • INA Bearing, Inc. • Normalorder • JPN -109339001 TESTCUST JP'. There are buttons for 'Express Checkout' (007) and 'Shipping Method' (acc. to agreement). Below this, there are buttons for 'Update Changes', 'Delete Selected Items', 'Check Price & Availability', 'Save to Draft Cart', and 'Proceed to Checkout'. The 'Cart Summary' section shows two items:

Item	Quantity	Date Req / Avail	Extended Price	Your Price	List Price
1. INA 4900	1	14-03-2006	0.00 JPY	0.00 JPY	0.00 JPY
2. HK 1010-B-HLA	1	14-03-2006	0.00 JPY	0.00 JPY	33.00 JPY

Changes of quantity, required date and pack code can be entered within the respective fields. After that changes confirmation via **Update Changes** is mandatory.

A required date can be assigned simultaneously to multiple line items. Line items may be marked in the mark boxes on the left side, to mark all lines at the same time use the mark box in the header line. Just mark the required lines, enter the required date in the header field and then press the button to apply one date to all marked lines.

Date Req / Avail:

Line items can be deleted by marking them and then press the button **Delete Selected Items**

To delete a whole cart just press .

It may happen that prices are marked in **red**. This indicates, that price or availability may have changed. Example: When the user has filled a cart and then logs out without processing the order, the cart will be saved. After logging in again, the cart is still available, but in the meantime the availability of parts may have changed. Recheck of price and availability can be done for all marked parts or to the whole cart.

Just press **Check Price & Availability**. Yet, orders can also be sent without P&A again, the Schaeffler ordering system will take the current discount and availability in any case.

Checkout

If no changes according to the payment methods or the shipping information are necessary, the user can proceed directly to the order summary after having entered the PO number in the field for the Express Checkout:

Express Checkout

In case of any commercial changes you will get to the section of **Payment and Shipping Information** via **Proceed to Checkout** :

Payment and Shipping Information

If required the shipping method and also the shipping address can be changed. Simply open the specific drop-down-field and choose the adequate entry.

Here all the order data can rechecked once again before the order will be processed via **Process Order**. Few seconds later a message will pop up from the system that the purchase order was received from the supplier.

Multiple shopping carts can be created if necessary. The active shopping cart can be put on hold in the section Draft Carts via **Save to Draft Cart**. After that a new separat shopping cart for another purchase order can be created.

Draft Carts

In this sections all draft carts can be selected via the drop-down-field **DraftCart11 [29.07.2005]** **Edit**.

You currently have: 20 Draft Carts

To display a different Draft Cart, select from the list: **DraftCart31 [25.07.2005]** **Edit**

The data is edited by the usual route. Via **Add Draft Cart to Active Cart** the activation is carried out again and the draft cart can be handled as purchase order.

Tip: Create the purchase order draft carts like shopping lists according to different criteria such as dates, customers or product groups.

Note: If you have filled a shopping cart and want to change to another supplier within the system, you will receive the following warning on the side of the supplier selection. If you mark "Yes" the current shopping cart will later be available in the Draft Cart section and will not be deleted.

Warning! Resetting the vendor will delete all items in cart.
