

Price list types

Provided that price list types for certain end customers are assigned to you, you can add these to the articles as additional reference within ENDORSIA. Furthermore you can access the corresponding prices and process them with orders.

The entry is possible when product details are shown, within the quick order section, the shopping list section, the draft cart section and within the shopping cart section. In each of these sections you can find the field **Additional Ref:** . By clicking on  a little screen will open where you will have to enter the price list type.

Attach Additional References in the correct box below (maximum 20 characters)

Additional Ref 1:

Additional Ref 2:

Enter the price list type in the first line **Additional Ref 1:**, e.g. 01, and click on **Attach References**. The button  will have changed now and will show a little lens . If you move the cursor onto this button, the deposited price list type will be shown on a little screen.
