SCHAEFFLER

Selected memberships of the Schaeffler Group

The Schaeffler Group is a member of industry and interest groups and other organizations with a societal mission on global as well as national level. The following list contains selected memberships that allow company representatives to participate in projects or working groups. As an industry association or in corresponding committees, the associations listed address issues associated with sustainability. These memberships are strategically significant for the company or its sector and are related to the topics considered as material for Schaeffler. Additional information can be found in the German Lobbying Registry.
