# Travel Adjusted Clutch

with cover-mounted clutch  
release system

# Travel Adjusted Clutch with Cover-Mounted Clutch Release System

## Description

- Wear-compensating clutch system with a concentric slave cylinder secured in the clutch cover

## Functional advantages

- Prevention of kinematic and pulsed excitations by the crankshaft and thus
  - prevention of pedal vibrations
  - prevention of gear rattle
  - prevention of chatter
- Add-on concept

## Product benefits

- Improved NVH behavior (reduction of noises and vibrations in the vehicle that lead to a loss of comfort)
