

Are you already cycling in the right gear – automatically?

Do you ride a conventional bike or a pedelec?  
A bike with derailleur or hub gears?

No matter which type of bike you own or intend to purchase – with the FAG VELOMATIC you're always in the right gear.

Set your shifting program:

- integrated in your on-board display
- or by using the VELODAPTIC app

Ask your distributor about the FAG VELOMATIC

# Always in the right gear – wherever you are!

Imagine you never had to shift gears again and could simply enjoy the ride. Now it's possible thanks to the FAG VELOMATIC automatic gearshift system. Wherever you go you'll enjoy more safety, more energy, more comfort and more adventure.

## FAG VELOMATIC:

The automatic gearshift system can be configured for any bike. The rider can change to manual shifting mode at any time.

## More SAFETY

... on your way to work and in traffic

## More ENERGY

... when shopping and carrying loads

## More COMFORT

... in everyday use and leisure time

## More ADVENTURE

... on joint tours and activities
