Disclaimer

This presentation contains forward-looking statements. The words “anticipate”, “assume”, “believe”, “estimate”, “expect”, “intend”, “may”, “plan”, “project”, “should” and similar expressions are used to identify forward-looking statements. Forward-looking statements are statements that are not historical facts; they include statements about Schaeffler Group’s beliefs and expectations and the assumptions underlying them. These statements are based on plans, estimates and projections as they are currently available to the management of Schaeffler AG. Forward-looking statements therefore speak only as of the date they are made, and Schaeffler Group undertakes no obligation to update any of them in light of new information or future events.

By their very nature, forward-looking statements involve risks and uncertainties. These statements are based on Schaeffler AG management’s current expectations and are subject to a number of factors and uncertainties that could cause actual results to differ materially from those described in the forward-looking statements. Actual results may differ from those set forth in the forward-looking statements as a result of various factors (including, but not limited to, future global economic conditions, changed market conditions affecting the automotive industry, intense competition in the markets in which we operate and costs of compliance with applicable laws, regulations and standards, diverse political, legal, economic and other conditions affecting our markets, and other factors beyond our control).

This presentation is intended to provide a general overview of Schaeffler Group’s business and does not purport to deal with all aspects and details regarding Schaeffler Group. Accordingly, neither Schaeffler Group nor any of its directors, officers, employees or advisers nor any other person makes any representation or warranty, express or implied, as to, and accordingly no reliance should be placed on, the accuracy or completeness of the information contained in the presentation or of the views given or implied. Neither Schaeffler Group nor any of its directors, officers, employees or advisers nor any other person shall have any liability whatsoever for any errors or omissions or any loss howsoever arising, directly or indirectly, from any use of this information or its contents or otherwise arising in connection therewith.

The material contained in this presentation reflects current legislation and the business and financial affairs of Schaeffler Group which are subject to change. It is not intended to constitute investment advice or an offer to sell, or a solicitation to buy, any securities.

The permission to use S&P Global Mobility copyrighted reports, data and information does not constitute an endorsement or approval by S&P Global Mobility of the manner, format, context, content, conclusion, opinion or viewpoint in which S&P Global Mobility reports, data and information or its derivations are used or referenced herein.

The Motion Technology Company – Our four divisions at a glance

E-Mobility

Modular and scalable solutions for all types of electric drives.

Powertrain & Chassis

Innovative solutions for powertrain and chassis systems.

Vehicle Lifetime Solutions

Tailored solutions for the mobility ecosystem.

Bearings & Industrial Solutions

Products and solutions for the industry of the future.

E-Mobility – At a glance

Sustainability and System Solutions

The E-Mobility division offers solutions for all types of electrified drive systems – from individual components to intelligent operating strategies, and complete drive systems.

With modular and scalable solutions, we support global automobile manufacturers with a state-of-the-art offering of system solutions designed to make mobility cleaner, more efficient, and more affordable.

Application examples

Solutions for electric drive systems

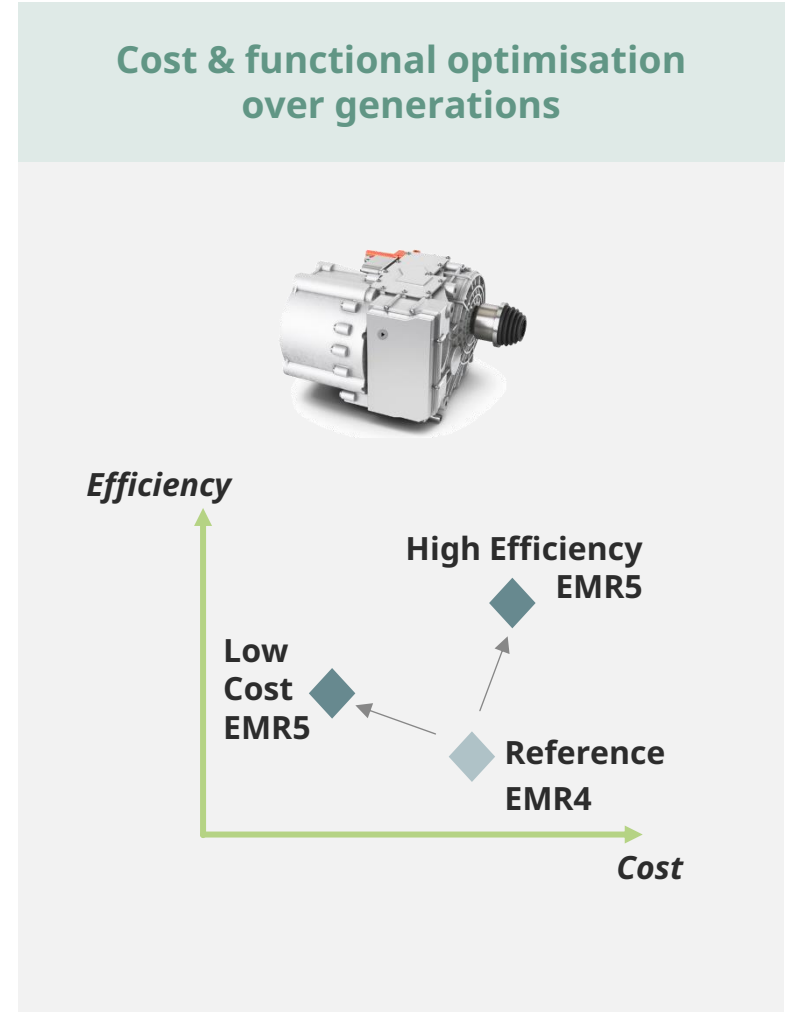

Control Systems

Solutions for thermal management

Integrated, scalable, modular and cost optimised portfolio
