<b>Special Items</b>	In order to make the evaluation of the company's results of operations as transparent as possible, the Schaeffler Group reports the indicators described before special items (=adjusted). Special items are items which the Board of Managing Directors considers to render the financial indicators less meaningful for evaluating the sustainability of the Schaeffler Group's profitability due to their nature, frequency, and/or size. Special Items are categorized as legal cases, restructuring, and other.
<b>ROCE</b>	The ROCE indicator measures the rate of return on capital and is defined as EBIT divided by average capital employed.
<b>SVA</b>	Calculation of the SVA starts with the company's EBIT. EBIT has to be sufficient to cover the cost of capital. Positive SVA means that EBIT has exceeded the cost of capital for the period and, therefore, that the Schaeffler Group has added value in this amount. Cost of capital is calculated by applying the minimum return of 10% p.a. (before tax).
<b>Capital employed</b>	Capital employed is calculated by adding up the following operating balance sheet items: property, plant and equipment and intangible assets as well as working capital. Capital employed also includes investments in joint ventures and associated companies, right-of-use assets under leases, contract assets and costs to fulfill a contract net of contract liabilities, refund liabilities as well as assets held for sale net of related liabilities. The annual average determined as the mathematical average of the balance at the end of each of the twelve months.
<b>Working capital</b>	Comprises trade receivables and inventories net of trade payables.
<b>Constant currency</b>	Revenue figures at constant currency, i.e. excluding the impact of currency translation, are calculated by translating functional currency revenue using the same exchange rate for both the current and the prior year or comparison reporting period.

Adjusted comparative figures for the prior year in structure of subsequent year due to structural changes like further divisionalization and a slight impact of a change in the accounting policy for development services.  
Furthermore, inclusion of i.a. thermal management module in E-Mobility Business Division effective January 1, 2021.
